SUMMARY

Full Stack Developer with expertise in **MERN, TypeScript, API design** and performance. Delivered scalable solutions through internships and freelance projects.

EXPERIENCE

Freelance Full Stack Developer   Mar 2024 – Present

- Developed and maintained responsive React applications using **TypeScript** and TailwindCSS.
- Migrated legacy backend systems from Laravel to **Node.js** and implemented robust **RESTful APIs**.
- Collaborated with cross-functional teams in agile sprints to ensure timely project deliveries.

Web Developer Intern   Aug 2023 – Feb 2024
Digital Ipsum Pvt. Ltd.   Kolkata, West Bengal

- Enhanced frontend components using React, TypeScript, MySQL, and TailwindCSS to improve UX.
- Transitioned backend processes to **Node.js** to boost scalability and efficiency.
- Employed Git for version control, streamlining collaboration and project management.

PROJECTS

Glory Gym Store — gloryfitnessgym.in   (Freelance, Nov 2024)

- Built a **self-hosted** e-commerce platform with robust **admin controls** and secure payment integration.
- Optimized performance using code splitting, caching, and responsive design techniques.
- Collaborated with designers to deliver an intuitive **UI/UX** experience.

EDUGATE LMS — edugate.sadiqr.in   (Personal, Jul 2024)

- Developed a **scalable** LMS with dynamic **role-based access** and interactive modules.
- Designed and integrated a comprehensive **REST API** for seamless data communication.
- Implemented real-time notifications and progress tracking to enhance user engagement.

EDUCATION

2020 – 2023   **Bachelor of Computer Applications**, Shivaji University (CGPA: 8.85)
